PROFESSIONAL EXPERIENCE

Team Lead, Compliance Group Inc Mar 2020 – Present · Hyderabad, India (Hybrid)

Team Lead (Feb 2024 – Present) · Senior Software Engineer (Aug 2022 – Jan 2024) · Software Engineer (Mar 2020 – Aug 2022)

- Lead a cross-functional engineering team, owning solution architecture, technical direction, code quality, and mentoring across the product suite.
- Built and modernized enterprise Quality (QMS), Document (DMS), and Training (TMS) Management platforms for regulated, compliance-driven industries.
- Led adoption of Generative AI across the product suite — delivered RAG-based knowledge systems, AI copilots, and agentic workflows using Azure OpenAI, vLLM, and vector databases.
- Engineered solutions across the full stack — React/TypeScript front ends and Node.js/Python services — and owned deployment on Azure (Blob Storage, AKS, Docker).
- Designed data models and integrations across MSSQL, Neo4j, Redis, and ChromaDB, plus third-party services such as Azure Blob Storage and OnlyOffice; drove proofs-of-concept and presented solutions directly to customers.

Associate Software Engineer, Yellow Messenger Oct 2019 – Feb 2020 · Bengaluru, India

Associate Software Engineer (Oct 2019 – Feb 2020) · Intern (Mar 2019 – Sep 2019)

- Partnered with the customer success team to deliver conversational AI solutions for business clients.
- Built cloud-function APIs integrating Elasticsearch, NLP services, and third-party client APIs. Tech: Python, JavaScript, Node.js, Elasticsearch, MongoDB.
